PROFESSIONAL SUMMARY

Programming educator based in Tokyo with hands-on experience teaching coding, robotics, and digital literacy to children and teens, both in person and online. Currently teaches at Funterra Kids School and the Mirai Minds robotics program, building on 3 years of undergraduate Computer Science teaching as a university lecturer. Patient, encouraging, and skilled at explaining technical concepts in a fun, age-appropriate way. English speaker with a strong foundation in programming, IT, and mathematics from ongoing Ph.D. studies in Computer Science.

TEACHING EXPERIENCE – CHILDREN & YOUTH

Mirai Minds Program, Rugby School Japan — Robotics Instructor

Aug. 2026 – Present

- Teach robotics and programming to children through hands-on, project-based lessons that build computational thinking and problem-solving skills.
- Design and deliver lesson plans; guide students in building and programming their own robotics projects.

Funterra Kids School, Tokyo, Japan — Programming Instructor

Dec. 2025 – Present

- Teach computer skills, digital literacy, and foundational programming (Scratch, Minecraft, Visual Basic) to young learners.
- Adapt lessons to different ages and skill levels, keeping classes engaging, hands-on, and easy to follow.

Shaukat Model High School, Gujrat, Pakistan

Sep. 2015 – Oct. 2016

- Introduced school-aged students to core coding concepts through practical, activity-based instruction.

UNIVERSITY TEACHING EXPERIENCE

University of Gujrat, Gujrat, Pakistan — Lecturer

Nov. 2021 – Feb. 2024

- Taught five undergraduate courses: Programming, Computer Networks, Network Security, Web Systems & Technologies, and Mobile Application Development.
- Mentored 15+ student capstone projects in GIS, web, and mobile application development.
- Received Outstanding Faculty Performance recognition (2023).

COMMUNICATION & MENTORING

Sea Dragons Gavel Club — Education Committee Member

Jun. 2026 – Present

- Volunteer mentor on the Education Committee of a youth public speaking club (ages 10–17) affiliated with Toastmasters International.
- Host one-on-one online consultations, giving structured, constructive feedback on students' speeches and presentations, tailored to each individual's level and goals.

EDUCATION

Tokyo Metropolitan University, Tokyo, Japan

Apr. 2024 – Sep. 2027 (expected)

Ph.D. in Electrical Engineering & Computer Science

- Research focus: AI and computer vision for medical image analysis; 7 peer-reviewed publications in computer vision and AI.

University of Gujrat, Gujrat, Pakistan

Sep. 2018 – Nov. 2021

M.S. in Information Technology

SKILLS & LANGUAGES

- Programming Languages: Python, C, C++, C#, JavaScript, VBA, HTML/CSS
- Kids' Coding: Scratch, Minecraft, Visual Basic, robotics
- Version Control: Git, GitHub
- Languages: English – Fluent (IELTS Certified, CEFR B2, British Council 2023) | Urdu – Native | Japanese – Basic
